Introduce Yourself!

Create a 30 second video introducing yourself. Your video should include:

1. A clear pronunciation of your first and last name (TIP: use the first name you want to be called in class! This is for your teachers and classmates to get to know you)
2. One thing that you would like us to know about you (i.e. a fun fact, hobby, talent, favorite show/band/movie/book).

*Remember: your teachers and classmates will view and use this video as a way to get to know you better!
